

Gulf Coast Veterinary Center

January 1st – March 31st

Check Out Our App!

Attention all GCVC pet parents! The PetDesk app includes some features to make your visit with us easier including:

- ❖ Scheduling Appointments
- ❖ Requesting medication refills
- ❖ Updates on your pet's annual services

Scan the QR code below to access the PetDesk app today!

Happy New Year!!

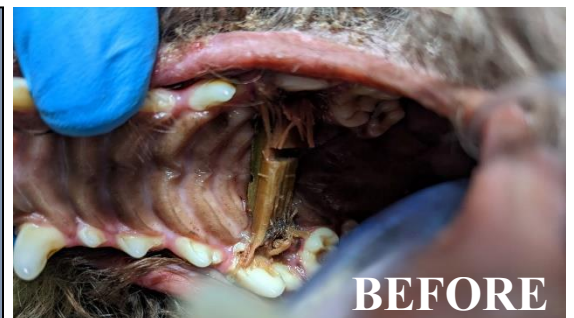

It is a new year, and what better way to celebrate than making sure that your pet's dental services are up to date! It is important to maintain your pet's dental health. Dental disease can lead to larger problems down the road when not addressed. Some hallmark symptoms of Periodontal disease are:

- ❖ Discolored Teeth (yellow / brown)
- ❖ Loose or missing teeth
- ❖ Bad breath
- ❖ Irritability/ Behavioral changes
- ❖ Favoring one side of the mouth when chewing
- ❖ Blood in water bowl or on chew toys
- ❖ Not eating
- ❖ Excessive Drooling
- ❖ Pawing at face

Unfortunately, our pets cannot take care of their own teeth or make their own dental appointments, so it is up to us as pet parents to stay vigilant and up to date with their dental needs.

Meet Teddy?

He came in to see us back in April experiencing some discomfort with his mouth and rubbing at his snout. We quickly got him on the schedule for a dental cleaning, as these signs are normally indicative of advanced periodontal disease. Upon thorough examination while under sedation for his cleaning, we discovered the root of his problem... a stick several inches long lodged in the roof of his mouth! A simple extraction of the stick and a good clean up of his teeth and Teddy was feeling back to normal in no time.

Meet Leslie! She is our Vet. Tech Supervisor who runs off coffee and dreams. She is 110% dedicated to ensuring that your pets receive the absolute best care. During her free time, Leslie likes to spend some quality time with her daughter and watch scary movies.

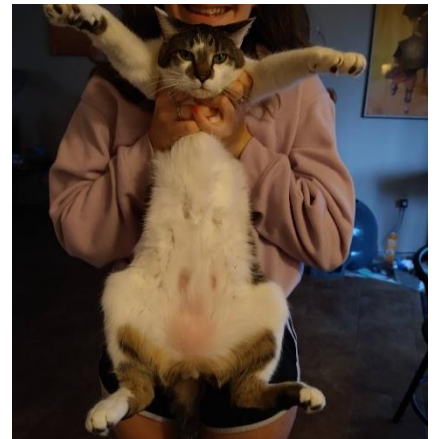

Librela is here!

Attention pet parents! If you have an older dog who may suffer from Osteoarthritis, we are now offering a monthly treatment that can give your pet relief up to 4-8 weeks at a time. Talk to your doctor or scan the QR code below for more info!

Meet Burt! He's a fun-loving jelly bellied boy, whose favorite time of day is dinner time! This action-packed hero likes to crawl up in the closet for snuggles with his fluffy towels, after a long day of working at the biscuit factory. (Honestly, he doesn't mind being held like this!)

DENTAL QUARTER

From January 1st – March 31st; join us as we enter our dental quarter! Get 10% off your pet's dental cleaning, or 20% off if you bring in two pets within the quarter. Ask your doctor or technician about getting your pet on the schedule for their dental cleaning today!
